UNIVERSITY OF MINNESOTA
MORRIS

Administrative Organization

FINANCIAL AND STAFFING INFORMATION

Information is provided on the expenditure of the general operations and maintenance fund and any legislative special appropriations for that particular year. The table shows actual expenditures, a more accurate financial indicator than the annual budget. Five-year summaries of that same information are also provided showing the total amount and separate summaries for compensation and supplies, expense, and equipment expenditures. It should be noted that the financial information may show only a rough correspondence to that provided by the central administration for the University as a whole because of differences in methods of collection and aggregation of the data. Revenue and expenditure data from the most recent IPEDS reports prepared by the central administration is also included. The financial charts show that, over the past five years, total college expenditures have risen by 5%, salaries and fringe benefits have risen by 8%, and supplies, expense, and equipment (SE&E) expenditures have declined by 2%. The proportion of total expenditures allotted to SE&E expenditures was 26% in 2011-12 and was 24% in 2015-16. The line chart indicates the proportion of expenditures most directly related to the academic program in comparison to those for administrative support.

Financial aid information for the past five years shows the actual distribution of aid including the number of eligible recipients and the average award per student. The information comes from the annual report from the Financial Aid Office. A table showing trends in tuition, fees, room and board is included.

A financial table is provided showing fund raising and endowment growth from 2000 to 2015. Endowment values have increased 44% over the past ten years with commitments averaging \$1,713,872 per year for the past five years. Another financial table shows trends in the level of funded research at UMM. Over the past five years, funded research has averaged 18 awards annually for an average total of \$1,549,453 per year.

Staffing counts include part-time, temporary staff, but do not include student employment. Teaching faculty are shown under the category of "Instruction and Research," with additional administrative faculty appearing under the categories of "Academic Affairs," "Executive Management," and "Support Professionals."

The reader is encouraged to study the definitions on the tables in order to understand which units are included under each of the categories shown. The information in the five-year summaries is broken down, first, by occupational classification and, secondly, by the principal function performed by the employees.

Note: A glossary of IPEDS terms is available on the following pages.

Glossary of Terms Used in IPEDS Revenues and Expenditures Report

REVENUES:

Tuition and fees: The amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. If tuition is charged on a per-credit-hour basis, the average full-time credit hour load for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of all students that the student who does not pay the charges is an exception.

Federal, state, and local appropriations: Revenues received by an institution through acts of a legislative body, except grants and contracts. These funds are for meeting current operating expenses and not for specific projects or programs. The most common example is a state's general appropriation. Appropriations primarily to fund capital assets are classified as capital appropriations.

Grants and contracts: Revenues from governmental agencies and nongovernmental parties that are for specific research projects, other types of programs, or for general institutional operations (if not government appropriations). Examples are research projects, training programs, student financial assistance, and similar activities for which amounts are received or expenses are reimbursable under the terms of a grant or contract, including amounts to cover both direct and indirect expenses. Includes Pell Grants and reimbursement for costs of administering federal financial aid programs. Grants and contracts should be classified to identify the governmental level - federal, state, or local - funding the grant or contract to the institution; grants and contracts from other sources are classified as nongovernmental grants and contracts. GASB institutions are required to classify in financial reports such grants and contracts as either operating or nonoperating.

Endowment income: includes: (1) the unrestricted income of endowment and similar funds; (2) restricted income of endowment and similar funds to the extent expended for current operating purposes, and (3) income from funds held in trust by others under irrevocable trusts. Excludes capital gains or losses unless the institution has adopted a spending formula by which it expends not only the yield but also a prudent portion of the appreciation of the principal. Does not include gains spent for current operations, which are treated as transfers.

Sales & services of educational activities: Revenues from the sales of goods or services that are incidental to the conduct of instruction, research or public service. Examples include film rentals, sales of scientific and literary publications, testing services, university presses, dairy products, machine shop products, data processing services, cosmetology services, and sales of handcrafts prepared in classes.

Auxiliary enterprises: Revenues generated by or collected from the auxiliary enterprise operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Auxiliary enterprises are managed as essentially self-supporting activities. Examples are residence halls, food services, student health services, intercollegiate athletics, college unions, college stores, and movie theaters.

Other: Other sources of revenues not covered elsewhere in the collection of IPEDS Finance data from schools reporting under the pre GASB 34/35 Standards. Examples are interest income and gains (net of losses) from investments of unrestricted current funds, miscellaneous rentals and sales, expired term endowments, and terminated annuity or life income agreements, if not material. Also includes revenues resulting from the sales and services of internal service departments to persons or agencies external to the institution (e.g., the sale of computer time).

EDUCATIONAL & GENERAL EXPENDITURES AND TRANSFERS

Instruction: A functional expense category that includes expenses of the colleges, schools, departments, and other instructional divisions of the institution and expenses for departmental research and public service that are not separately budgeted. Includes general academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and regular, special, and extension sessions. Also includes expenses for both credit and non-credit activities. Excludes expenses for academic administration where the primary function is administration (e.g., academic deans). Information technology expenses related to instructional activities if the institution

separately budgets and expenses information technology resources are included (otherwise these expenses are included in academic support). Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.

Research: A functional expense category that includes expenses for activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers, and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs). Also included are information technology expenses related to research activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support.) Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.

Public services: A functional expense category that includes expenses for activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory service, reference bureaus, and similar services provided to particular sectors of the community. This function includes expenses for community services, cooperative extension services, and public broadcasting services. Also includes information technology expenses related to the public service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in academic support). GASB institutions include actual or allocated costs for operation and maintenance of plant and depreciation.

Academic support: A functional expense category that includes expenses of activities and services that support the institution's primary missions of instruction, research, and public service. It includes the retention, preservation, and display of educational materials (for example, libraries, museums, and galleries); organized activities that provide support services to the academic functions of the institution (such as a demonstration school associated with a college of education or veterinary and dental clinics if their primary purpose is to support the instructional program); media such as audiovisual services; academic administration (including academic deans but not department chairpersons); and formally organized and separately budgeted academic personnel development and course and curriculum development expenses. Also included are information technology expenses related to academic support activities; if an institution does not separately budget and expense information technology resources, the costs associated with the three primary programs will be applied to this function and the remainder to institutional support. Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.

Student services: A functional expense category that includes expenses for admissions, registrar activities, and activities whose primary purpose is to contribute to students emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal administration, and student records. Intercollegiate athletics and student health services may also be included except when operated as self-supporting auxiliary enterprises. Also may include information technology expenses related to student service activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support.) Institutions include actual or allocated costs for operation and maintenance of plant, interest, and depreciation.

Institutional support: A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the IT costs associated with student services and operation and maintenance of plant will also be applied to this function.

Operation and maintenance of plant: An expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include utilities, fire protection, property insurance, and similar items. This expense does include amounts charged to auxiliary enterprises, hospitals, and

independent operations. Also includes information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support).

Scholarships and fellowships: That portion of scholarships and fellowships granted that exceeds the amount applied to institutional charges such as tuition and fees or room and board. The amount reported as expense excludes allowances and discounts.

Nonmandatory transfers: Transfers from current funds to other fund groups made at the discretion of the governing board to serve a variety of objectives, such as additions to loan funds, funds functioning as endowment (quasi-endowment), general or specific plant additions, voluntary renewals and replacement of plant, and prepayments on debt principal.

Mandatory transfers: Those transfers that must be made to fulfill a binding legal obligation of the institution. Includes mandatory debt-service provisions relating to academic and administrative buildings, including (1) amounts set aside for debt retirement and interest; and (2) required provisions for renewal and replacements to the extent not financed from other sources. Also includes the institutional matching portion for Perkins loans when the source of funds is current revenue.

AUXILIARY ENTERPRISES

Expenditures: Expenses for essentially self-supporting operations of the institution that exist to furnish a service to students, faculty, or staff, and that charge a fee that is directly related to, although not necessarily equal to, the cost of the service. Examples are residence halls, food services, student health services, intercollegiate athletics (only if essentially self-supporting), college unions, college stores, faculty and staff parking, and faculty housing. Institutions include actual or allocated costs for operation and maintenance of plant, interest and depreciation.

^The University Fee was rolled into tuition beginning 2011-12.

*Based on tuition band of 13 or more credits per term for 2007-08 to present; prior to fall 2007, 15-20 credits per term was the tuition band.

**Morris has a reciprocity agreement with the states of North Dakota, South Dakota, Wisconsin, and the province of Manitoba, Canada. As of Fall 2016, new out-of-state students that are not residents of reciprocity states and international students are charged the non-resident rate.

***Based on rates for double room in a dorm plus 19-meal plan.

~Calculations include only students that completed a bachelor's degree, and do not include PLUS loans.

Source: FY02-FY14 from University of Minnesota Foundation Donor Management System (DMS) Executive Reports. FY00-FY01 data from query of DMS production and receipted tables. Commitments are outright gifts, pledge obligations, deferred obligations and dollars to be matched. Endowment values are the 6/30 market values of both true and quasi endowments held by both UMM and by the University of Minnesota Foundation. A true endowment is a fund in which the principal balance cannot be spent; only the available balance can be spent, which is approximately 4.5% (this figure subject to change) of a trailing average of the principal fund balance. A quasi endowment is a fund that earns market return like a true endowment but its principal balance can be spent.

Definitions:

--Instruction and Research includes the academic divisions. The division chairs are counted as 0.5 under Instruction and Research and 0.5 under Academic Affairs. Staff with athletic and teaching responsibilities are counted as 0.25 under Instruction and Research and 0.75 under Intercollegiate Athletics.

--Academic Affairs includes the Vice Chancellor's Office, Library, Instructional and Media Technologies, Advising, Academic Assistance and Disability Services, Registrar's Office, Online Learning and Summer Session, Career Center, Grants Development, and divisional offices. Center for Small Towns staff are shown under Auxiliary Enterprises.

--Chancellor's Office includes University Relations, Alumni Relations, Fund Development, Human Resources, Sustainability, Institutional Effectiveness and Research, Admissions, and Financial Aid.

--Student Affairs includes the Vice Chancellor's Office, Counseling, Health Service, Residential Life office staff, Student Activities, and Equity, Diversity, and Multi-cultural Programs. Residential Life custodial staff are shown under Auxiliary Enterprises.

--Business Services includes the Finance director and Business Office. Food Services and the Bookstore are shown under Auxiliary Enterprises.

--Plant Services includes Information Technology, Post Office, Campus Police, Planning, Telephone, General and Custodial Maintenance, Building Trades, Grounds, and Transportation. Duplicating and Vending are shown under Auxiliary Enterprises.

--Auxiliary Enterprises includes Food Service, Vending, Duplicating, Bookstore, Residential Life custodial staff, and Center for Small Towns.

--Counts do not include faculty leave replacements, student employment, part-time faculty or staff employed less than 25% time.

--For 2015-16, 2.33 FTE staff were paid by grant funds in Academic Affairs and 1.96 FTE staff were paid by grant funds in Student Affairs.

Distribution of Faculty/Staff for 2015-2016

University of Minnesota, Morris
A Five-Year Summary of the Academic, Civil Service, and Bargaining Unit Staffing
by Occupational Classification
for 2011-2016

Staffing by Class. 2011-16

Classification	2011-12	2012-13	2013-14	2014-15	2015-16
Teaching Faculty	126.5	129.8	131.7	132.0	136.4
Executive Management	5.0	5.0	4.7	4.0	4.0
Support Professionals	83.2	90.5	94.1	95.8	97.0
Technical Employees	17.8	17.5	16.2	15.9	16.0
Office/Clerical	66.3	65.9	64.9	62.8	65.1
Crafts/Trades	21.6	22.3	21.9	21.8	22.0
Service Employees	46.0	48.8	49.5	48.0	50.6
Total	366.4	379.6	383.0	380.2	391.1

Most temporary and continuing part-time employees are counted on a percentage basis (faculty on leave are counted but not their replacements).

Definitions:

- Teaching Faculty category includes instructional faculty and division chairs.
- Executive Management category includes the chancellor and vice chancellors.
- Support Professionals category includes Academic and Student Affairs directors, librarians, coaches, police, nurse, trainer, etc.
- Technical Employees category includes junior engineer, landscape supervisor, computer specialists, electronic technicians, etc.
- Office and Clerical category includes Clerical and Office supervisory staff and assistant administrators.
- Crafts and Trades category includes bargaining unit staff in skilled trades such as carpenters, electricians, plumbers, etc.
- Service Employees category includes primarily bargaining unit staff in custodial and food Service positions.

--Instruction and Research includes the academic Divisions and all Continuing Education faculty. Staff with athletic responsibilities are split between Instruction and Intercollegiate Athletics; Division Chairs are split between Instruction and Academic Affairs.

--Academic Affairs includes the Vice Chancellor's Office, Divisional Offices, Library, Instructional and Media Technologies, Advising, Academic Assistance and Disability Services, Registrar's Office, Online Learning and Summer Session, Career Center, Grants Development, and Continuing Education.

--Chancellor's Office also includes University Relations, Alumni Relations, Fund Development, Human Resources, Sustainability, Institutional Effectiveness and Research, Admissions, and Financial Aid.

--Student Affairs includes the Vice Chancellor's Office, Counseling, Health Service, Residential Life office staff, Student Activities, and Equity, Diversity, and Multicultural Programs. Residential Life custodial staff are shown under Auxiliary Services.

--Business Services includes the Finance Dir. and Business Office. Food Services and Bookstore are shown under Auxiliary Enterprises.

--Plant Services includes Information Technology, Post Office, Campus Police, Planning, Telephone, General and Custodial Maintenance, Building Trades, Grounds, and Transportation. Duplicating and Vending are shown under Auxiliary Enterprises.

--Auxiliary Enterprises includes Food Services, Vending, Duplicating, Bookstore, Residential Life custodial staff, and Center for Small Towns.

UMM Staffing Trends During the Decade (Part 1)

Beginning in FY10, Admissions and Financial Aid are included in Chancellor's Staff rather than Enrollment. Computing Services was moved from Academic Affairs to Plant Services.

UMM Staffing Trends During the Decade (Part 2)

Beginning FY10, Computing Services was moved from Academic Affairs to Plant Services.

UMM Staffing Trends FY 2001-2016

FTE Employees in Instruction/Research and Academic Affairs Staff

CERP is Continuing Education and Regional Programs. FTE is Full-time Equivalent.

*Paid by UMM; in prior years CERP staff were paid by the central U of MN Continuing Education and Extension.

UMM Institutional Research

STUDENT INFORMATION

Information provided in this section has been selected primarily because it relates to enrollment and retention. The summary sheet "Student Body Information" provides a brief profile of each successive freshman class as well as certain demographic information regarding the student body as a whole. The map of Minnesota shows the distribution of Minnesota students within the student body. Changes in high school ranks and ACT scores over the past five years are shown. Included are a table and charts showing study abroad activity of UMM students.

The five-year summaries of headcount, full-year equivalent enrollment, and student-of-color enrollment show not only data for UMM but for the University system as a whole and are the official figures provided by the central administration. Fall term headcount enrollment uses the standard definition: students registered for one or more credits at the end of the second week of the fall term. Full-year equivalent (FYE) enrollments are determined by dividing the total student credit hours by the full-time credit enrollment for one year and are compiled at the end of the academic year. The charts related to enrollment show fall term headcounts at UMM since it opened in 1960 and the close relationship between headcount and FYE enrollment. The data showing the numbers of students from other states is based on the home location of students at the time of application.

A chart shows cohort retention and graduation rates for UMM freshmen who remained at UMM and, in addition, those who transferred to any other college within the University of Minnesota system.

The tables provided show only a small amount of the profile, enrollment, demographic, aptitude, student demand, grade, and follow-up information available on the UMM student body. In many instances, considerable data is available with University-wide, state, and national comparisons as well. Contact the UMM Institutional Research Office for more information.

FYE from official University of Minnesota Institutional Research report or query.

Notes: "ICT" refers to Inter-Campus Transfers; "Cont." refers to continuing students; "FYE" to Full-Year Equivalent. Continuing students enrolled at UMM the previous year are labeled as "Same Unit" in official reports. New non-degree counts include non-degree ICT and readmits. PSEO students are counted in "New Non-Degree" counts.

Note: Beginning fall 2000, retention statistics are based on revised cohort definitions.

Rates are shown first for freshmen who entered UMM and remained on the Morris campus, and second, for freshmen who entered UMM and remained or graduated from any campus within the University of Minnesota system.

Cohort retention shows the percentage of the entering freshmen returning for their sophomore year and so on for each subsequent year. Includes students retained or who graduated in less than 4 years. Data from the University of Minnesota Undergraduate Retention Report.

Rates are shown first for freshmen who entered UMM and remained or graduated from any campus within the University of Minnesota system.

Cohort retention shows the percentage of the entering freshmen returning for their sophomore year and so on for each subsequent year. Includes students retained or who graduated in less than 4 years. Data from the University of Minnesota Student Retention Report of 2015.

ACADEMIC PROGRAM INFORMATION

Five-year summaries of the declared majors for the entire student body as well as degrees granted are provided as an indication of student interest and demand for programs offered at UMM. A line chart shows the change in the pattern of declared majors of the student body between the spring of '12 and the spring of '16. The table showing student:faculty ratios also contains a column for Full-Year Equivalent (FYE) students which represents a student demand for the courses of that discipline. This statistic is determined by dividing the academic year total student credit hours taught in a given discipline by the normal full-time credit load for a single student.

The student:faculty ratio table also indicates Full-Time Equivalent (FTE) faculty which is based upon the actual teaching loads of both the full- and part-time faculty or instructional staff in that discipline for the given year. The current student:faculty ratios are shown as well as the five-year average. Two related charts show the distribution of course enrollments expressed as FYE students among the four divisions and the distribution of instructional resources expressed as FTE faculty among those same divisions. The charts illustrate both student demand and the allocation of faculty resources. An additional table is provided showing the annual total of student credit hours taught, total enrollment in all courses offered, number of upper and lower division classes (including multiple sections), and FTE faculty for each discipline. The data represent some of the more conventional indices of discipline teaching load.

One of the tables shows FTE teaching positions for the most recent five years. During the past several years, UMM has shifted some civil service and faculty positions into the Academic Professional and Administrative (P&A) staff category; these instructional staff positions are included in the FTE teaching count. The FTE calculation prorates the equivalent of full-time teaching positions committed to instruction in that discipline. Part-time positions are added in proportion to the number of credits taught. Teaching faculty with administrative responsibilities have a portion of their position deducted in like fashion (division chairs and sport studies and athletics staff with coaching responsibilities are examples).

The table showing faculty salaries includes nine- and ten-month faculty with full-time teaching responsibilities. Division chairs and faculty members with primarily administrative responsibilities have been excluded. Ten-month salaries have been converted to show their nine-month equivalent. Finally, the percentage of the total faculty who are tenured, who are women, or who are faculty of color is shown. The final chart shows the change in the percentages of tenured faculty, women faculty, and faculty of color over the years.

Elaborate academic profile and planning data covering nearly every facet of faculty characteristics, salaries, student demand, work load, cost and productivity statistics are maintained. Most have been collected annually in a consistent fashion for more than a decade. In addition, University-wide information is available on many of these same characteristics provided by the central administration. The UMM Institutional Research Office is the best single source for this data.

FYE Student = SCH/30; FTE Faculty based on actual teaching load of full- and part-time faculty. Note: FYE and FTE do not include summer counts. *SCH for Geog are counted in Social Sci. Div. but the course is taught online; normally online FTE faculty for Geog are counted with online totals only.

Full-Year Equivalent (FYE) Student Course Enrollment by Division

Full-Time Equivalent (FTE) Faculty by Division

FTE is the Full-time-Equivalent faculty count. Note: Beginning 2011-12, Online Learning was counted as a separate category; before that time, online courses were counted with regular classroom courses in the Division.

Notes: SCH includes official counts for the fiscal year, including summer. SCH is calculated by multiplying total end-of-second-week class enrollments by number of credits; SCH for online learning is counted in the home disciplines; enrollment is the end-of-term enrollment in all courses offered by the discipline; no. of classes incl. multiple sections (excl. 0-1 cr. courses, music lessons, SSA skills courses); average class size is the average enrollment in the discipline's upper and lower division classes, including multiple sections, but excluding one-credit, noncredit, and directed studies offerings; instructor credit hours (ICH)/FTE is the number of credits taught by faculty in the discipline divided by the number of FTE faculty (e.g., 1 faculty member teaches 5 courses at 4 credits each for a total of 20 ICH).

FULL-YEAR EQUIVALENT (FYE) STUDENTS	1837	1809	1859	1807	1755	1813
FYE STUDENTS/FTE FACULTY RATIO	15.29	14.44	14.49	14.07	13.72	14.40

*Beginning 2011-12, Geography courses were taught through Online Learning; the FTE attributed to the online Geography courses is listed in brackets. The FTE faculty count includes all instructional staff--ranked faculty along with P&A lecturers and teaching specialists. For this table, FYE students are calculated by adding full-time student headcount to 1/3 of part-time student headcount.
